

Review of designs (final/Refined designs)

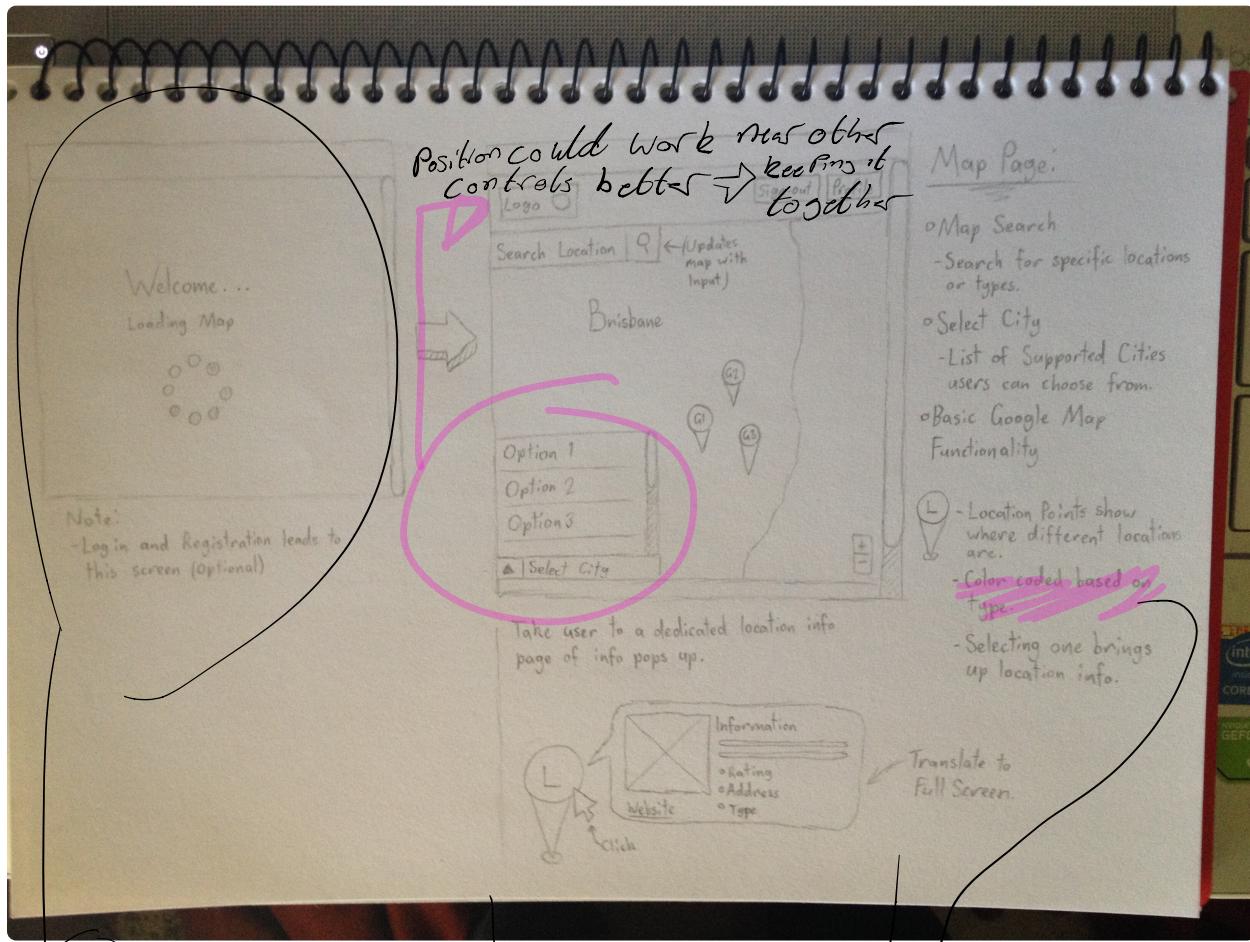

①

D allows it to be used anywhere
in web page.

②

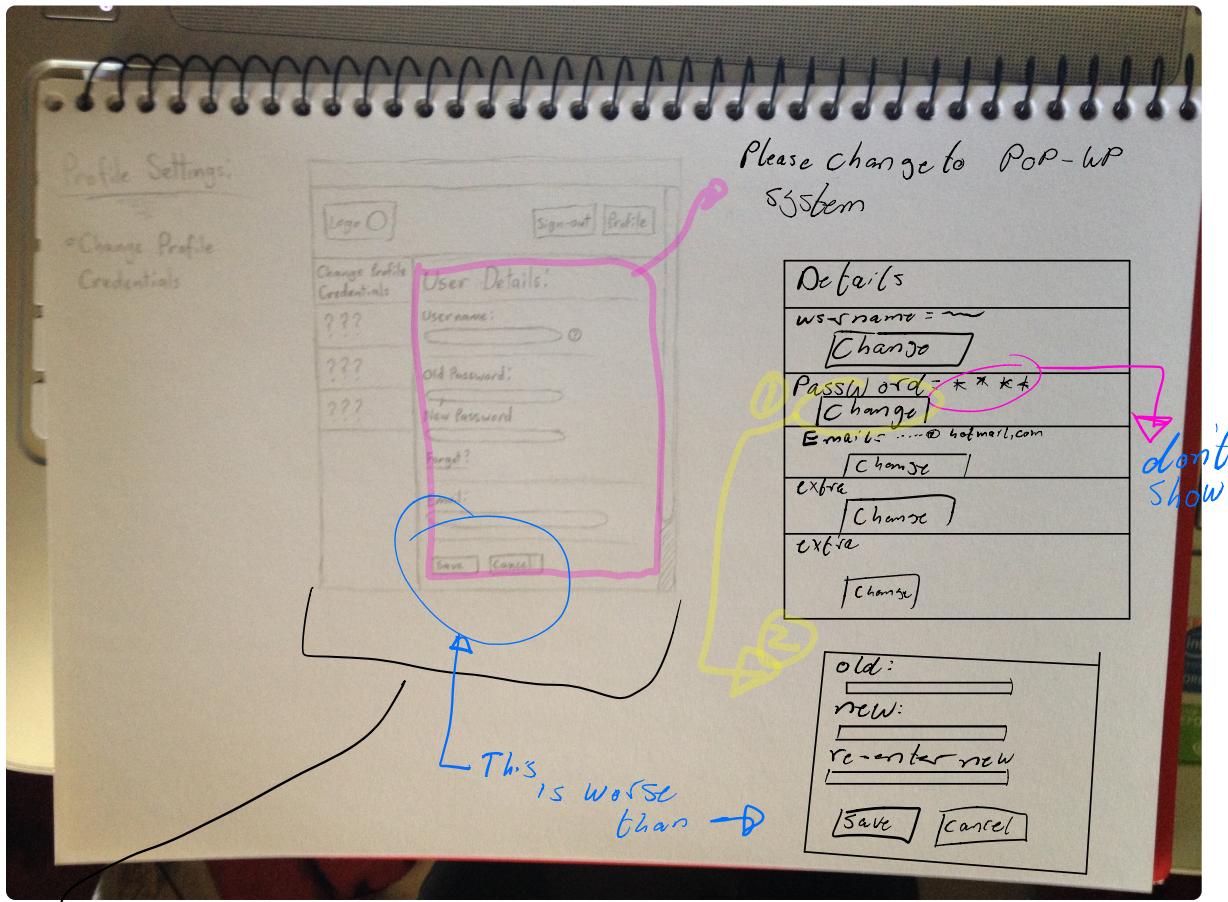

D good

3

only put in
if it takes
too long to load

may be
confusing
- Where is the
"selected type" in
the design

④

Other notes:

- confirm at every pop up
- ② - proposed design is not standard compared to what users are used to.

Why? - allows for user to view + change their details

- requires users to confirm every action
